Your Program For Tiny Tots Aged 4 to 42 months

Little Nipper 1

FOR: Babies aged approximately 4 to 15 months with parents in the water.

SKILLS REQUIRED: No Skill requirements.

- Hold on for five seconds
- Submerge under water
- Jump to mum or dad

Then I can progress into a Little Nipper 2 class.

Little Nipper 2

FOR: Beginner toddlers aged between 15 months and 3 ½ years with parents in the water.

SKILLS REQUIRED: When I can happily and independently:

- Jump independently
- Propel through the water
- Kick my legs
- Turnaround, grab the side and pull up for a breath

Then I can progress into a Little Nipper 3 class.

Little Nipper 3 (Advanced Toddlers)

FOR: Experienced toddlers aged between 2 to 3 ½ years with parents in the water.

SKILLS REQUIRED: When I can happily, confidently and independently:

- Wait for go, follow directions and separate from mum or dad
- Kick 1 meter, grab the side and pull myself up to breathe
- Fall in, turnaround, grab the side and pull up to breathe
- Back float 10 seconds with an aid

Then I can progress into a Little Nipper 4 class without my mum or dad.

Little Nipper 4 (Toddler Transitional Class)

FOR: Advanced toddlers approximately 3 to 3½ years parents OUT of the water.

SKILLS REQUIRED: When I am mature enough and can happily and confidently:

- Kick 2 meters face in
- Float on my back 10 seconds without an aid
- Recover from front float and from back float
- Roll over or pop up breathe
- Jump into deep water and kick back to the side

Then I can progress into an appropriate class - see page 2.

Your child may have achieved some of these levels however without practice skills can deteriorate or be lost. Always supervise children around water. © Dipadees 2013

- Train for performance and endurance
- Enjoy the social and fun environment
- Healthy exercise

Dear Mums and Dads,

These awards have been designed to encourage your child as he or she progresses through each of the Dipadees levels.

Each award represents many hours of practice in the water and allows both you and your child to feel proud of past efforts and to track the skills needed to move to the next level.

Each certificate and the individual skill rewards can help to motivate your child, however it is important to understand that the intrinsic motivators, such as wanting to be at lessons and feeling proud of your effort is more important than the external reward of a certificate.

The best results from your lessons are usually achieved when your child feels motivated to "give it a go". Learning to swim is not an easy skill to master so remember to praise your child's efforts rather than focusing on a reward.

Your child's safety is our number one focus, this means the teacher has set criteria for each skill and these skills always focus on efficiency.

The more we repeat and correct skills the more efficient your child should become at surviving in the water, so encourage your child to keep practicing and to master each skill rather than hurrying through the levels.

Happy Swimming!

The Dipadees Team

Always supervise children around water.
